**Rnd 15:** BLO sc around. [8]
**Rnd 16-17:** sc around. [8]

Fasten off, leaving a long tail for sewing.

We will now insert wire and stuffing into the arm. Measure the length of the first arm, then the area above the chest where the wire will go through the body and then the second arm; add an additional inch / 2.5cm. This is the total length of wire needed. With a wire cutter, bend one end to make an eyelet. Wrap a small piece of masking tape around the eyelet to prevent it from poking through the stitches. Insert this end into the first arm and stuff around it lightly.

Insert the other end of the wire into the area where the arm will be placed [Image 2]. Push the wire all the way through to the other side where the second arm will be attached. Bend the tip into an eyelet, secure with masking tape, insert it into the second arm and stuff lightly.

Hold the arms in place with pearl headed pins and sew in place [Image 3]. Hold the top of the arms with your thumb and index finger and bend them downwards.

**HEAD**

**Rnd 1:** With brown yarn, 8 sc in a magic ring. [8]
**Rnd 2:** inc X 8. [16]

Fasten off light peach yarn and join black.

**Rnd 23:** (sc 2, dec) X 8. [24]

Insert 10mm safety eyes between Rnd 17 & 18,
10 stitches apart.

**Rnd 24**: dec X 12. [12]
Stuff the head, leaving space for neck insertion. Insert neck in the neck opening to check if it fits. If the neck opening is larger than the neck, continue to Rnd 25. Otherwise, skip Round 25.

**Rnd 25**: (sc 4, dec) X 2. [10]
Fasten off and weave in the yarn end.

**INDENT EYE**
Mark the areas next to the eyes as shown in Image 4. Thread a yarn needle with light peach yarn and insert it from the neck opening, bringing it out at the marked stitch on the top right [Image 5]. Push the needle back in from the stitch below to it, bringing it out from the marked st on the left parallel to it [Image 6]. Again, push the needle back in from the marked stitch directly above it and out from the neck opening [Image 7]. Pull both ends of the yarn tightly. Once you are satisfied with the look, knot the yarn ends to secure [Image 8]. Clip off excess yarn and push the knot inside the head.

**EMBELLISH EYES**
Thread a yarn needle with white yarn and embroider a curve along the outer corner of the eyes. Next with brown yarn, sew a line stretching from the top inner corner of the eye to the outer corner.

**EYEBROWS**
Thread a yarn needle with brown yarn. Insert needle from the neck opening, bring it out from Point A and back into the head from Point B [Image 9]. Push the needle out from Point C* and in from Point D [Image 10], and finally out from the neck opening. Knot the yarn ends a couple of times to secure. Clip off excess yarn and push the knot back inside the head.

*When you bring out the needle from Point C, make sure the exit point of the needle is slightly above the first horizontal line [between Point A and B], with the needle pushing this line upwards. Doing so will create an arch.

**NOSE**
Sew three straight horizontal lines across 4 sts between Rnd 15 & 16.

**HAT**
**Rnd 1**: With red yarn, ch 9. Starting from the second ch from the hook, sc in the next 7 ch, inc in the last ch. Working on the opposite side of the foundation ch, sc in the next 7 ch. [16]
**Rnd 2**: (sc, inc) X 8. [24]
**Rnd 3**: (sc 2, inc) X 8. [32]
**Rnd 4**: sc around. [32]
**Rnd 5**: (sc 3, inc) X 8. [40]
**Rnd 6**: sc around. [40]
Rnd 7: (sc 4, inc) X 8. [48]
Rnd 8: (sc 5, inc) X 8. [56]
Rnd 9-16: sc around. [56]
Rnd 17: sl st in the next st, ch 3, fpdc in the next st, (bpdc in the next st, fpdc in the next st) X 27; sl st in the first st to join. [56]
Fasten off; weave in the yarn ends.

**HAIR**

Slip hat on the head and mark the area falling outside the hat with pearl headed pins [image 11]. The area falling outside this ‘line’ (towards the face and not the scalp area) is where you will be embroidering hair [image 12]. Since the hat will be covering most of the head, you don’t need to embroider hair inside of this line. Take the hat off.

Thread a yarn needle with brown yarn. Insert needle from the neck opening (leaving a small length of tail behind) and bring it out a little above the pin on the right side of the face. From here on, make slanting lines of varying lengths until you cover the left side of the head [image 13-18]. Repeat this on the right side of the head [image 19]. Continue embroidering hair strands on the sides of the face and also on the back of the head.

After you embroider the last ‘strand’ of hair, insert needle in and bring it out from the neck opening. Tie yarn tails together to secure. Cut off excess yarn.

**JOIN HEAD**

Thread yarn needle with black yarn. Insert the needle from the top of the head and bring it out from the neck opening. Now insert needle through the neck at Rnd 26, back through the neck opening on the head, and out from the top of the head (make sure the entry and exit space is the same) [image 20]. Slide the head down the two strands of yarn until it sits perfectly around the neck. Knot the yarn ends together a few times to secure. Clip off excess yarn and carefully push remaining yarn back into the head. Slip hat on head and sew on head with red yarn.

**BACKPACK**

Fasten off.

From the last worked st, count counter clockwise and mark the 14th st (A); skip the next 4 st and mark the next st (B) [image 21].
Go back to the last worked st. This time, count clockwise from the st on the left of the last worked st and mark the 14th st (C); skip the next 4 st and mark the next st (D).

**Side Panel**

Row 1: With red yarn, ch 29. Starting from the second ch from the hook, sc 28, ch 1, turn. [28]
Row 2: sc 28, ch 1, turn. [28]

Fasten off, leaving a long tail for sewing.

Hold one end of the panel against Point C of the oval and sew from this point on all the way to Point A [Image 22]. Sew the shorter side of the panel to the 4-sc space between Point A & B. Sew the panel and the oval from Point B all the way to Point D [Image 23]. Stuff lightly and sew the second short end of the panel to the space between Point D & C.

This is the total length of wire needed. With a wire cutter, bend one end to make an eyelet. Wrap a small piece of masking tape around the eyelet to prevent it from poking through the stitches. Insert this end into the first arm and stuff around it lightly.

Insert the other end of the wire into the area where the arm will be placed [Image 2]. Push the wire all the way through to the other side where the second arm will be attached. Bend the tip into an eyelet, secure with masking tape, insert it into the second arm and stuff lightly. Hold the arms in place with pearl headed pins and sew in place [Image 3].
